⚠ CAUTION

n **For vehicles sold in the U.S.A. and Canada**

l Part 15 of the FCC Rules

FCC Warning:
Any unauthorized changes or modifications to this equipment will void the user's authority to operate this device.

l Laser products

• Do not take this unit apart or attempt to make any changes yourself.
This is an intricate unit that uses a laser pickup to retrieve information from the surface of compact discs. The laser is carefully shielded so that its rays remain inside the cabinet. Therefore, never try to disassemble the player or alter any of its parts since you may be exposed to laser rays and dangerous voltages.

• This product utilizes a laser.
Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

⚠ NOTICE

n **To prevent 12 volt battery discharge**

Do not leave the audio system on longer than necessary with the hybrid system off.
n **To avoid damaging the audio/video system**

Take care not to spill drinks or other fluids over the audio system.

Press [AM·SAT] or [FM] to choose either an AM or FM band.

When you press [AUDIO] while listening to the radio, the following audio control screen appears.

Display audio control screen

Preset stations

Scan for receivable stations (AM mode only)

Power   Volume

Adjust the frequency (AM, FM mode) or channel (SAT mode)

Preset tuning

Seek frequency

Scan for receivable stations

AM·SAT/FM mode buttons

This illustration is a vehicle not equipped with the DVD player.

Setting station presets (excluding XM® satellite radio)

STEP 1 Search for desired stations by turning the ⬤ dial or pressing

∧ or ∨ on ⬚ .

STEP 2 Touch and hold one of the preset stations (1 - 6) until you hear a beep.

Scanning radio stations (excluding XM® satellite radio)

n **Scanning the preset radio stations**

l AM station

STEP 1 Touch SCAN on the screen or press SCAN until "P·SCAN" appears.

Preset stations will be played for a few seconds each.

STEP 2 When the desired station is reached, touch SCAN or press SCAN once again.

l FM station

STEP 1 Press SCAN until "P·SCAN" appears.

STEP 2 When the desired station is reached, press the button once again.

n **Scanning all radio stations within range**

l AM station

STEP 1 Touch **SCAN** on the screen or press SCAN .

"SCAN" appears on the screen and all stations with reception will be played for a few seconds each.

STEP 2 When the desired station is reached, touch **SCAN** or press SCAN once again.

l FM station

STEP 1 Press SCAN .

"SCAN" appears on the screen and all stations with reception will be played for a few seconds each.

STEP 2 When the desired station is reached, press the button once again.

RDS (Radio Data System)

This feature allows your radio to receive station identification information and program information (classical, jazz, etc.) from radio stations which broadcast this information.

n **Receiving RDS broadcasts**

STEP 1

Touch TYPE◄ or TYPE► on the screen.

3

Interior features

205

The type of program changes each time the button is pressed.

l ROCK

l EASYLIS (Easy listening)

l CLS/JAZZ (Classical music and Jazz)

l R & B (Rhythm and Blues)

l INFORM (Information)

l RELIGION

l MISC (Miscellaneous)

l ALARM (Emergency messages)

If the system receives no RDS stations, "NO PTY" appears on the display.

When a program is set, "TYPE SEEK" appears.

STEP 2 Touch [TYPE SEEK] on the screen or press ∧ or ∨ on [SEEK TRACK] .

The radio seeks or scans the station by the relevant program type.

If no radio station of that type is found, "NOTHING" appears on the screen.

n **Displaying radio text messages**

Touch [MSG] on the screen.

If "MSG" appears on the screen, a text message may be displayed.

206

n **Traffic announcement**

Touch TRAF on the screen.

"TRAF SEEK" appears on the display, and the radio will start seeking any station broadcasting traffic program information.

If no traffic program station is found, "NOTHING" appears on the display.

XM® satellite radio (if equipped)

n **Receiving XM® satellite radio**

STEP 1

Press AM·SAT until "SAT" appears on the screen.

The display changes as follows each time the switch is pressed.

AM → SAT1 → SAT2 → SAT3

STEP 2 Turn the ⊙ dial to select a desired channel from all the categories or press ∧ or ∨ on SEEK TRACK to select a desired channel in the current category.

n **Presetting XM® satellite radio channels**

Select the desired channel. Touch one of the preset stations (1 - 6) and hold it until you hear a beep.

n **Changing the channel category**

Touch TYPE◄ or TYPE► on the screen.

n **Scanning XM® satellite radio channels**

1 Scanning channels in the current category

STEP 1 Touch TYPE SCAN on the screen or press SCAN .
"SCAN" appears on the screen.

STEP 2 When the desired channel is reached, touch TYPE SCAN or press
the button once again.

1 Scanning preset channels

STEP 1 Touch TYPE SCAN on the screen or press SCAN and hold it until
you hear a beep.
"P·SCAN" appears on the screen.

STEP 2 When the desired channel is reached, touch TYPE SCAN or press
the button once again.

n **Displaying the title and artist name**

Touch TEXT on the screen.

The screen will display up to 16 characters.

Touch the button once again to return to the previous screen.

n **When the 12 volt battery is disconnected**

All preset stations are erased.

n **Reception sensitivity**

l Maintaining perfect radio reception at all times is difficult due to the continually changing position of the antenna, differences in signal strength and surrounding objects, such as trains, transmitters, etc.

l The radio antenna is mounted inside the rear window. To maintain clear radio reception, do not attach metallic window tinting or other metallic objects to the antenna wire mounted inside the rear window.

n **XM® satellite radio**

The optional Lexus genuine satellite radio tuner and antenna allows you to receive and play XM® satellite radio broadcasts. (Subscription is required. Not available in Hawaii and Alaska.)*

l XM® subscriptions
For detailed information about XM® satellite radio or to subscribe, visit XM® on the web at www.xmradio.com or call (800) 967-2346.

l Radio ID
You will need the radio ID when activating XM® service or reporting a prob-

lem. Select "CH000" using the dial, and the receiver's 8-character ID

number will appear.

l Satellite tuner
The tuner supports only Audio Services (Music and Talk) and the accompanying Text Information of XM® satellite radio.

*: Terms and services provided by XM® Radio are subject to change without notice.

3

Interior features

209

n **If the satellite radio does not operate normally**

If a problem occurs with the XM® tuner, a message will appear on the screen. Refer to the table below to identify the problem, and take the suggested corrective action.

ANTENNA	The XM® antenna is not connected. Check whether the XM® antenna cable is attached securely.
	There is a short-circuit in the antenna or the surrounding antenna cable. See a Lexus certified dealer.
UPDATING	You have not subscribed to XM® satellite radio. The radio is being updated with the latest encryption code. Contact XM® satellite radio for subscription information. When a contract is canceled, you can choose "CH000" and all free-to-air channels.
	The premium channel you selected is not authorized. Wait for about 2 seconds until the radio returns to the previous channel or "CH001". If it does not change automatically, select another channel. If you want to listen to the premium channel, contact XM® satellite radio.
NO SIGNAL	The XM® signal is too weak at the current location. Wait until your vehicle reaches a location with a stronger signal.
LOADING	The unit is acquiring audio or program information. Wait until the unit has received the information.
OFF AIR	The channel you selected is not broadcasting any programming. Select another channel.
-----	There is no song/program title or artist name/feature associated with the channel at that time. No action needed.

---	The channel you selected is no longer available. Wait for about 2 seconds until the radio returns to the previous channel or "CH001". If it does not change automatically, select another channel.

Contact the XM® Listener Care Center at (800) 967-2346 during the following hours*.
Monday - Saturday: 6 a.m. - 2 a.m. Eastern Time
Sunday: 8 a.m. - 8 p.m. Eastern Time

*: Subject to change without notice.

n **Certifications for the radio tuner**

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by trying one or more of the following:

l Reorienting or relocating the receiving antenna.

l Increasing the separation between the equipment and receiver.

l Connecting the equipment into an outlet on a circuit different from that to which the receiver is connected.

l Consulting the dealer or an experienced radio/TV technician for help.

212

Selecting a track

n **Skip a number of tracks at a time**

STEP 1 Press ∧ on [SEEK TRACK] .

STEP 2

Press ∧ until the number you want to skip appears.

9 tracks can be skipped at a time.

n **Rewind a number of tracks at a time**

STEP 1 Press ∨ on [SEEK TRACK] .

STEP 2

Press ∨ until the number you want to rewind appears.

9 tracks can be rewound at a time.

Note that the number includes the current track.

3

Interior features

213

Using Dolby® Noise Reduction

Touch [⫍⫎] on the screen.

Reduces the level of noise for tapes recorded with Dolby NR only.

Dolby noise reduction is manufactured under license from Dolby Laboratories Licensing Corporation. DOLBY and the double-D symbol [⫍⫎] are registered trademarks of Dolby Laboratories.

n **Canceling noise reduction, skip play, repeat play, rewind and fast forward**

To cancel [⫍⫎] , [SKIP] and [RPT] : Touch the corresponding button on the screen.

To cancel [◄◄] and [►►] : Touch the corresponding button on the screen or press [TAPE] .

n **Auto-reverse feature**

After the cassette player reaches the end of a tape, it automatically reverses and begins to play the other side, regardless of whether the cassette was playing or fast forwarding.

n **When the cassette player does not operate correctly due to the cassette recording conditions**

Forwarding to the beginning of a track, repeat, blank tape skip and fast-forward may not be possible in the following situations:

l The interval between tracks is less than 3 seconds (beginning of track and repeat playback) or less than 15 seconds (blank tape skip).

l When there is noise between 2 tracks.

l The beginning and end of subsequent tracks are not clearly defined.

n **Cleaning the cassette player**

Cassette player components (heads, capstan, pinch rollers) should be cleaned at least once a month using a cleaning tape to remove dirt and dust that can easily build up.

n **Using long playing cassette tapes**

Avoid using tapes with a length of more than 90 minutes, as the tape used is very thin and may become tangled in the cassette player.

⚠ NOTICE

n **Cassette tapes that cannot be used**

Do not use a cassette tape if it has been damaged or tangled or if its label is peeling off. Such tapes may affect playing speed and may also get stuck in the player.

n **Cassette player precautions**

l Store cassette tapes away from direct sunlight.

l Do not insert anything other than cassette tapes into the cassette player.

l Do not apply oil to the cassette player.

217

Selecting, fast forwarding and scanning tracks

n **Selecting a track**

Press ∧ to move up and ∨ to move down using [SEEK TRACK] until the desired

track number appears on the screen.

To fast forward or rewind, press and hold ∧ or ∨ on [SEEK TRACK] .

n **Selecting a track from the track list**

STEP 1 Touch [TRACK LIST] on the screen.

STEP 2

Touch the desired track number.

▲ or ▼: changes the list by 6 track groups.

This function is available only when the vehicle is not moving.

n **Scanning a CD**

STEP 1 Touch [SCAN] on the screen.

"SCAN" appears on the screen.

The first 10 seconds of each track will be played.

STEP 2 Touch [SCAN] once again when the desired track is reached.

Selecting a CD

n **To select a CD to play**

Touch the desired disc number (1 - 6) on the screen or press ∧ or ∨ on

[CH DISC] .

n **To scan loaded CDs**

STEP 1 Touch and hold [SCAN] on the screen until "D·SCAN" appears.
The first 10 seconds of the first track on each CD will be played.

STEP 2 Touch [SCAN] once again when the desired CD is reached.

Random playback

n **Current CD**

Touch [RAND] on the screen.

Songs are played in random order until random playback is canceled.

n **All CDs**

Touch and hold [RAND] on the screen until "D·RAND" appears.

Tracks on all loaded CDs are played in random order until the button is touched once again.

Repeating a track or a disc

n **Repeating a track**

Touch [RPT] on the screen.

n **Repeating a disc**

Touch and hold [RPT] on the screen until "D·RPT" appears.

3

Interior features

n **Canceling random, repeat and scan playback**

Touch [RAND], [RPT], or [SCAN] on the screen once again.

n **Displaying the title and artist name**

If a CD-TEXT disc is inserted, the title of the disc and track will be displayed. Up to 16 letters can be displayed.

n **Error messages**

Refer to the following table and take the appropriate measures. If the problem is not rectified, take the vehicle to your Lexus dealer.

Message	Cause	Correction Procedures
No CD or No Disc	There is no disc in the CD or DVD changer	Insert a disc
CD X Check or DISC X Check	• The disc X is dirty or damaged • The disc X is inserted upside down • The disc X is not playable with the player	• Clean the disc • Insert the disc correctly • Confirm the disc is playable with the player
CD Error or DVD Error	• There is a malfunction within the system • Operation is stopped due to a high temperature inside the player	• Eject the disc • Eject the disc and allow the player to cool down
NO MUSIC FILE	This indicates that no playable data is included in the disc	Eject the disc

n **CD compatibility**

Audio CDs

Only audio CDs with the marks shown to the left can be used.

The following products may not be playable on your CD player.

l SACDs

l dts-CDs

l Copy-protected CDs

n **CD player protection feature**

To protect the internal components, playback is automatically stopped when a problem is detected.

n **If CDs are left inside the CD player or in the ejected position for extended periods**

CDs may be damaged and may not play properly.

n **Lens cleaners**

Do not use lens cleaners. Doing so may damage the CD player.

  CDs may be damaged and may not play properly.

- **Lens cleaners**
  Do not use lens cleaners. Doing so may damage the CD player.

3

Interior features

227

n **MP3 and WMA files**

MP3 (MPEG Audio LAYER 3) is a standard audio compression format.

Files can be compressed to approximately 1/10 of their original size by using MP3 compression.

WMA (Windows Media ^{TM}Audio) is a Microsoft audio compression format.

This format compresses audio data to a size smaller than that of the MP3 format.

There is a limit to the MP3 and WMA file standards and to the media/formats recorded by them that can be used.

l MP3 file compatibility

- Compatible standards
  MP3 (MPEG1 LAYER3, MPEG2 LSF LAYER3)
- Compatible sampling frequencies
  MPEG1 LAYER3: 32, 44.1, 48 (kHz)
  MPEG2 LSF LAYER3: 16, 22.05, 24 (kHz)
- Compatible bit rates
  MPEG1 LAYER3: 64, 80, 96, 112, 128, 160, 192, 224, 256, 320 (kbps)
- MPEG2 LSF LAYER3: 64, 80, 96, 112, 128, 144, 160 (kbps)
  *: Compatible with VBR
- Compatible channel modes: stereo, joint stereo, dual channel and monaural

l WMA file compatibility

- Compatible standards
  WMA Ver. 7, 8, 9
- Compatible sampling frequencies
  32, 44.1, 48 (kHz)
- Compatible bit rates
  Ver. 7, 8: CBR 48, 64, 80, 96, 128, 160, 192 (kbps)
  Ver. 9: CBR 48, 64, 80, 96, 128, 160, 192, 256, 320 (kbps)
  *: Only compatible with 2-channel playback

l Compatible media

Media that can be used for MP3 and WMA playback are CD-Rs and CD-RWs.

Playback in some instances may not be possible, depending on the status of the CD-R or CD-RW. Playback may not be possible or the audio may jump if the disc is scratched or marked with fingerprints.

l Compatible disc formats

The following disc formats can be used.

• Disc formats: CD-ROM Mode 1 and Mode 2

CD-ROM XA Mode 2, Form 1 and Form 2

• File formats: ISO9660 level 1, level 2, (Romeo, Joliet)

MP3 and WMA files written in any format other than those listed above may not play correctly, and their file names and folder names may not be displayed correctly.

Items related to standards and limitations are as follows:

• Maximum directory hierarchy: 8 levels
• Maximum length of folder names/file names: 32 characters
• Maximum number of folders: 192 (including the root)
• Maximum number of files per disc: 255

l File names

The only files that can be recognized as MP3/WMA and played are those with the extension .mp3 or .wma.

l Multi-sessions

As the audio system is compatible with multi-sessions, it is possible to play discs that contain MP3 and WMA files. However, only the first session can be played.

l ID3 and WMA tags

ID3 tags can be added to MP3 files, making it possible to record the track title and artist name, etc.

The system is compatible with ID3 Ver. 1.0, 1.1, and Ver. 2.2, 2.3 ID3 tags. (The number of characters is based on ID3 Ver. 1.0 and 1.1.)

WMA tags can be added to WMA files, making it possible to record the track title and artist name in the same way as with ID3 tags.

3

Interior features

229

1 MP3 and WMA playback

When a disc containing MP3 or WMA files is inserted, all files on the disc are first checked. Once the file check is finished, the first MP3 or WMA file is played. To make the file check finish more quickly, we recommend you do not write in any files other than MP3 or WMA files or create any unnecessary folders.

Discs that contain a mixture of music data and MP3 or WMA format data cannot be played.

1 Extensions

If the file extensions .mp3 and .wma are used for files other than MP3 and WMA files, they will be mistakenly recognized and played as MP3 and WMA files. This may result in large amounts of interference and damage to the speakers.

1 Playback

• To play MP3 files with steady sound quality, we recommend a fixed bit rate of 128 kbps and a sampling frequency of 44.1 kHz.
• CD-R or CD-RW playback may not be possible in some instances, depending on the characteristics of the disc.
• There is a wide variety of freeware and other encoding software for MP3 and WMA files on the market, and depending on the status of the encoding and the file format, poor sound quality or noise at the start of playback may result. In some cases, playback may not be possible at all.
• When files other than MP3 or WMA files are recorded on a disc, it may take more time to recognize the disc and in some cases, playback may not be possible at all.
• Microsoft, Windows, and Windows Media are the registered trademarks of Microsoft Corporation in the U.S. and other countries.

n **CD-R and CD-RW discs**

l CD-R/CD-RW discs that have not been subject to the "finalizing process" (a process that allows discs to be played on a conventional CD player) cannot be played.

l It may not be possible to play CD-R/CD-RW discs recorded on a music CD recorder or a personal computer because of disc characteristics, scratches or dirt on the disc, or dirt, condensation, etc. on the lens of the unit.

l It may not be possible to play discs recorded on a personal computer depending on the application settings and the environment. Record with the correct format. (For details, contact the appropriate application manufacturers of the applications.)

l CD-R/CD-RW discs may be damaged by direct exposure to sunlight, high temperatures or other storage conditions. The unit may be unable to play damaged discs.

l If you insert a CD-RW disc into the MP3/WMA player, playback will begin more slowly than with a conventional CD or CD-R disc.

l Recordings on CD-R/CD-RW cannot be played using the DDCD (Double Density CD) system.

n **Unsuitable discs, and player precautions**

Interior features

Slow playback

Touch [❚❚] and then touch [►►]. Video is played slowly while you are touching [►►].

Searching a desired screen

n Searching by title (DVD video mode)

STEP 1 Touch [Search] in the control icons.

STEP 2

Input the desired title number and then touch [Enter].

[Clear] : deletes the last input number.

[« OFF] : hides the icons. To display the icons, touch [» ON].

[↩] : returns to previous screen.

n Searching by group (DVD audio mode)

STEP 1 Touch [Search] in the control icons.

STEP 2
Input the group number and then touch [Enter].

[Clear] : deletes the last input number.

[« OFF] : hides the icons. To display the icons, touch [» ON].

[↩] : returns to previous screen.

238

n **Playing a bonus group (DVD audio mode only, if the DVD has bonus options)**

STEP 1 Touch Search in the control icons.

STEP 2

Enter Key Code

1	2	3
4	5	6
7	8	9
	0	Enter

ILY32G040

Input the desired bonus group number on the group search screen and touch Enter .

◄ : deletes the number.

⮌ : returns to previous screen.

n **Searching by chapter/track**

Press ∧ or ∨ on SEEK TRACK to select a chapter/track.

n **Selecting a menu number (DVD audio mode only)**

STEP 1 Touch Select Number in the control icons.

STEP 2

Enter Number

1	2	3
4	5	6
7	8	9
≪ OFF	Clear	0	Enter

ILY32G031

Input the desired menu number on the screen and touch Enter .

Using the DVD menu

STEP 1 Touch `Menu` or `Top Menu` in the control icons.

Touch `⬦` if the menu control key does not appear on the menu screen.

STEP 2

Touch ▲, ▼, ◄ or ► to select a menu item, then touch `Enter` to select.

`Move Buttons` : moves icons up or down.

`‹‹ OFF` : hides icons. To display icons, touch `›› ON`.

`↩` : returns to previous screen.

Note that specific items or the operating method differs from one DVD to another. Refer to the manual that comes with the DVD disc. (The above image is an example.)

Changing the subtitle language
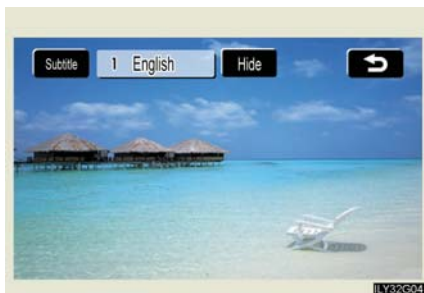

Touch `Subtitle` in the control icons.

Each time you touch the button, the next available language is selected.

`Hide` : hides the control icons.

`↩` : returns to previous screen.

Changing the audio language (DVD video only)

Touch **AUDIO** in the control icons.

Each time you touch the button, the next available language is selected.

↩ : returns to previous screen.

Changing the audio format (DVD audio only)
Touch **AUDIO** in the control icons.

Each time you touch the button, the next available audio format is selected.

↩ : returns to previous screen.

Changing the angle (If the angle option is available)

STEP 1 Touch **Angle** in the control icons.

STEP 2

Touch the **Angle** button.

Each time you touch the button, the next available angle is selected.

↩ : returns to previous screen.

3

Interior features

Initial DVD setup

n Displaying "Setup Menu" screen

STEP 1 Touch Setup in the control icons.

STEP 2

After you change the initial settings, touch Enter .

Default : restores default settings.

n Setting audio language

STEP 1 Touch Audio Language .

STEP 2 Select the desired language.

If you cannot find the desired language, touch Other and input the desired language code. (→P. 243)
: returns to previous screen.

n Setting subtitle language

STEP 1 Touch Subtitle Language .

STEP 2 Select the desired language.

If you cannot find the desired language, touch Other and input the desired language code. (→P. 243)

: returns to previous screen.

n Setting menu language

STEP 1 Touch DVD Language .

STEP 2 Select the desired language.

If you cannot find the desired language, touch Other and input the desired language code. (→P. 243)

: returns to previous screen.

■ **Setting angle mark ON or OFF**

If the DVD has angle options, you can turn the angle mark on or off.

Touch [Angle Mark] . Each time you touch the button, the multi angle mark on the screen turns on or off alternately.

■ **Parental lock**

STEP 1 Touch [Parental Lock] .

STEP 2

Input the 4-digit password and then touch [Enter] .

> If you enter wrong numbers, touch [◄] to delete the numbers.
> Touch [◄] 10 times to initialize the personal code.

STEP 3 Select a parental level (1 - 8).

[⟲] : returns to previous screen.

■ **Entering a language code**

If you touch [Other] on the "Select Audio Language" screen, "Select Subtitle Language" screen or "Select DVD Language" screen, you can select a language by entering the 4-digit language code if that language is available.
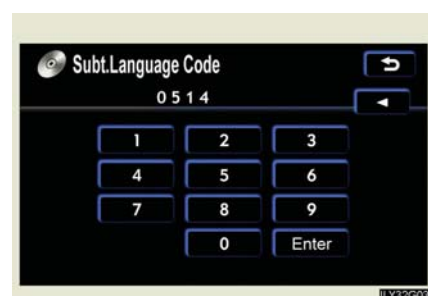

Input the 4-digit language code and then touch [Enter] .

[◄] : deletes the last input digit.

[⟲] : returns to previous screen.

If "Region Code Error" is displayed, check the region code printed on the DVD matches the player's region code.

If a different message is displayed: →P. 220
DVD player and DVD video disc information

n **DVD video discs**

The DVD player conforms to NTSC color TV formats.

Region code: Some DVD video discs have a region code indicating the region in which you can use the DVD video disc. If the DVD video disc is not labeled as "ALL" or "1", you cannot use it on this DVD player. If you attempt to play an inappropriate DVD video disc on this player, "Region Code Error" appears on the screen. Even if the DVD video disc does not have a region code, you may not be able to use it.

n **Symbols shown on DVD video discs**

Mark	Meaning
NTSC	Indicates NTSC format.
②)))	Indicates the number of audio tracks.
.2.	Indicates the number of language subtitles.
3	Indicates the number of angles.
16:9 LB 4:3	Indicates the screen display ratios available. Wide screen: 16:9 Standard: 4:3
ALL	Indicates the disc's region code. ALL: in all countries Number: region code

n **DVD video disc information**

l DVD video discs
 Digital Versatile Disc that holds video. DVD video discs have adopted "MPEG2", one of the world standards of digital compression technologies. The picture data is compressed by 1/40 on average and stored. Variable rate encoding technology in which the volume of data assigned to the picture is changed depending on the picture format has also been adopted. Audio data is stored using PCM and Dolby digital, which enables higher quality of sound. Furthermore, multi-angle and multi-language features will also help you enjoy the more advanced technology of DVD video.

l Viewer restrictions
This feature limits what can be viewed in conformity with the level of restrictions of the country. The level of restrictions varies depending on the DVD video disc. Some DVD video discs cannot be played at all, or violent scenes are skipped or replaced with other scenes.

Level 1: DVD video discs for children can be played.

Level 2-7: DVD video discs for children and G-rated movies can be played.

Level 8: All types of DVD video discs can be played.

l Multi-angle option
You can enjoy the same scene from different angles.

l Multi-language option
You can select the subtitle and audio languages.

l Region codes
The region codes are found on DVD players and DVD discs. If a DVD video disc does not have the same region code as the DVD player, you cannot play the disc on that DVD player. (→P. 251)

l Audio
This DVD player can play linear PCM, Dolby Digital and MPEG audio format DVD. Other decoded types cannot be played.

l Title and chapter
Video and audio programs stored in DVD video discs are divided into parts by title and chapter.

Title: The largest unit of the video and audio programs stored on DVD video discs. Usually, one movie, one album, or one audio program is assigned as a title.

Chapter: A title is comprised of one or more chapters.

n **Unsuitable discs, and player precautions**

⚠ CAUTION

n **DVD video precaution**

Conversational speech on some DVDs is recorded at a low volume to emphasize the impact of sound effects. If you adjust the volume assuming that the conversations represent the maximum volume level that the DVD will play, you may be startled by louder sound effects or when you change to a different audio source.

Loud sounds may have a significant impact on the human body or pose a driving hazard. Keep this in mind when you adjust the volume.

Press (AUDIO) on the panel to display the audio/video control screen.

▶ Operating the radio, cassette player and CD player

Adjust sound quality and balance
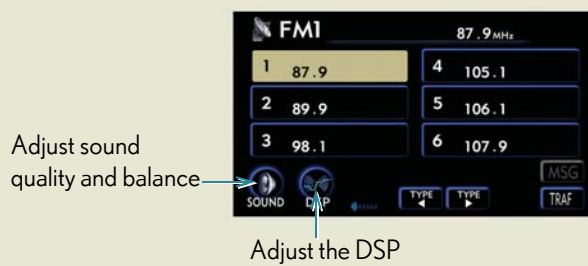

Adjust the DSP

▶ Operating the DVD video/audio and video CD

Adjust sound quality and balance

Adjust the DSP
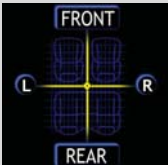

Adjust screen ratio

3

Interior features

Adjusting sound quality and balance

STEP 1 Touch [SOUND] on the screen.

STEP 2
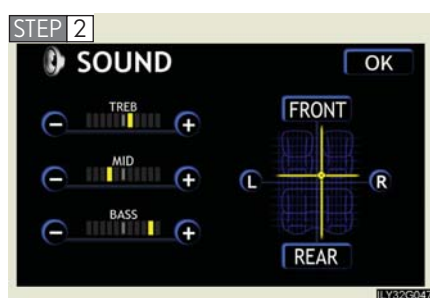

Adjust the settings, referring to the following table.

Once you have finished, touch OK.

Sound quality mode	Display	Level	Touch
High-pitched tones*	TREB	-5 to 5	
Mid-pitched tones*	MID	-5 to 5	⊖ or ⊕
Low-pitched tones*	BASS	-5 to 5	
Front/rear volume balance	FRONT / REAR	F7 to R7	FRONT or REAR
Left/right volume balance		L7 to R7	L or R

*: The sound quality level is adjusted individually in each radio, cassette tape, CD or DVD mode.

Setting DSP

The following features can be set as desired by touching [DSP] on the screen.

► With CD player   ► With DVD player

n **Turning Automatic Sound Levelizer (ASL) ON or OFF**
   Touch [ON] or [OFF].

   ASL automatically adjusts the volume and tone quality according to the noise level as you drive your vehicle.

n **Changing the listening position (vehicles with CD player only)**
   The speaker balance can be changed to produce the best sound for each listening position.

   Touch [CHANGE].

   The listening position changes as follows each time the switch is touched.

Display	Listening position
	Position best suited to the driver's seat
	Position best suited to the driver's and front passenger's seat

3

Interior features
